Profile Summary

A passionate programmer and developer with a strong foundation in mathematics, logic, and various programming languages. I am a graduate of Light Vehicle Engineering from SMK Bina Siswa Utama and am currently pursuing a Bachelor's degree in Informatics Engineering at Bhayangkara University. Always striving to be a better person in terms of skills and character and open to any input sources to achieve it. A hard worker who is hungry for experience and the ability to adapt quickly in any condition.

Experience

Software Development, Internship

PT. Mitsubishi Krama Yudha Motors & Manufacturing | Pulo Gadung, Jakarta Timur

April 2025 – July 2025

- Developed a web-based system using Laravel framework for **Safety Assessment** and **5S (Sort, Set in order, Shine, Standardize, Sustain)** implementation in the production area.
- Designed user interfaces and system workflows to assist operators and supervisors in inputting and following up safety-related findings.
- Implemented features such as user authentication, risk finding CRUD operations, and dashboard reports using Laravel & Bootstrap.
- Managed database structure and storage using MySQL and performed system testing in the actual production environment.
- Collaborated with Safety and IT teams to gather requirements and conduct user acceptance testing (UAT).
- Documented system workflows, testing reports (Blackbox), and evaluation outcomes.

Production Operator – Timing Gear Case Machine, Full Time

PT. Mitsubishi Krama Yudha Motors & Manufacturing | Pulo Gadung, Jakarta Timur

Agustus 2022 – June 2023

- Operated production machinery for manufacturing precision timing gear case components according to company standards.
- Performed quality control checks to ensure products met required specifications and SOP guidelines.
- Conducted machine setup and parameter adjustments based on production requirements.
- Reported machine abnormalities or non-conforming products (NG) to the maintenance and quality departments.
- Maintained cleanliness and safety in the work area by following occupational health and safety standards.
- Collaborated with team members to meet daily production targets and improve overall efficiency.

Admin & Job Control Warranty, Full Time

Honda Autoland | Kelapa Gading, Jakarta Utara

March 2022 – July 2022

- Managed vehicle service administrative tasks, including job entry and document filing.
- Scheduled technician jobs based on workshop capacity and service priority.
- Handled vehicle warranty claims to Honda Indonesia in accordance with official procedures.
- Verified warranty documentation and ensured claim eligibility before submission to the warranty system.
- Coordinated with service advisors, workshop supervisors, and spare parts teams to ensure efficient service workflow.
- Prepared regular warranty and job reports for internal monitoring and audit purposes.

Pramuniaga, Full Time

PT. Gadai Top Indonesia | Kota Bekasi, Indonesia

Agustus 2021 – November 2021

- Assisted customers in pawn and product purchase transactions with friendly and professional service.
- Explained product details and promotional offers clearly to clients.
- Organized and maintained product displays according to visual merchandising standards.
- Conducted regular inventory checks and stock records.
- Supported daily administrative tasks and transaction documentation.
- Contributed to achieving monthly sales targets and ensuring customer satisfaction

Mechanic, Intrenship

Arafah Tire Workshop | Kota Bekasi, Indonesia

October 2019 – December 2019

- Assisted in routine vehicle maintenance and repair, including oil changes, engine tune-ups, and scheduled servicing.
- Supported inspection and troubleshooting of braking systems, suspensions, electrical components, and cooling systems.
- Operated workshop tools such as hydraulic jacks, OBD scanners, and standard mechanical tools safely and efficiently.
- Learned diagnostic procedures for identifying vehicle issues based on customer complaints and inspection results.
- Collaborated with senior technicians and workshop teams to ensure timely and accurate repairs.

Education

Vocational High School (SMK) - Light Vehicle Engineering

SMK Bina Siswa Utama | Kota Bekasi, Indonesia

2018 - 2021

Bachelor Degree (In Progress) - Informatic Engineering

Universitas Bhayangkara | Kota Bekasi, Indonesia

2022 - Present

Skills

- PHP with MySQL, Bootstrap, and Laravel.
- Microsoft Office (Intermediate).
- Python (Data Science, Basic).
- ASP.NET (Basic).
- SQL Server (Basic).
- Communication and presentation skills.
- Adaptability and flexibility in work environments.
